General Information

Flights:

We do not directly arrange international flights to South Sudan. However, we can suggest routes and operators.

Visas:

You will require a South Sudan visa for this trip. We will provide visa support and you must apply for an e-Visa.

Food:

We provide all meals when outside of Juba. Juba has more options, so we leave the choice and cost to you.

Accommodation:

We do not and cannot offer a uniform accommodation standard on our itineraries. Even if we wanted to, the reality is that standards in Juba cannot be compared to a tent camp stay in the interior of South Sudan. We consider comfort, location, design, character, historical interest and whether the money we spend will go into the pockets of the local community when we make our choices of where to stay. The accommodation will be based on you sharing a twin room/tent.

Transport:

When we choose our vehicles and drivers we take into consideration the road conditions, the length of journey and the competence of the man behind the wheel. Your comfort, enjoyment and safety of the journey is the top priority.

Guides:

On this trip you will be accompanied by an experienced English-speaking local guide.

Security:

Travel in South Sudan poses many risks, and the country is inherently politically unstable. Our client's safety is our primary concern. We must state that the guide has the final word with regards to changes in the itinerary for safety reasons. Whilst the route we have chosen passes through areas that we consider stable, things can change and we may have to alter the route or cancel sections of the trip at short notice.
